### TOWN COUNCIL

It was a windy night at the Council meeting held last Monday.

Everybody seemed to possess and exercise the gift of tongues, and the faded confusion which reigned at the Tower of Babel was as a mist's conference in comparison.

The cyclonic effect of the conversation was so great at one period that the venerable solicitor had to retire to his secretary's boudoir in order to think clearly.

It may have been that the Council was full—or, rather, that there was a full council—or perhaps, related at the temporary settlement of the rates to be charged for electricity, (at only one hundred per cent increase) which caused the excess verbiage, but whatever the cause the effect was bewildering.

However out of the chaos of conflicting opinions some very important business evolved.

The special committee appointed to interview the "Electric Light Company" brought in its report and it was finally decided to pay the company at the rate of two cents per kw. hour for any amount up to 10,000 kw. hours per month, and 3 1/2 per kw. hour for any amount in excess of that amount the company to install a meter at the Pump Station. This arrangement will stand for three months and the Town will have the right to revert to its old agreement at the end of that period if devious to do so.

The engineer reported that the last test made of the auxiliary steam plant had been very unsatisfactory and was obviously of the opinion that the smoke stack should be erected without delay.

He also reported that the hall over Smith's garage could be made

### Another Old-Timer Departs

Mr. and Mrs. E. R. Muir left Bassano on Tuesday for Calgary where they will reside in future.

Mr. Muir was one of Bassano's earliest business men disposing of his men's wear business to A. McKee upon signing up with the McKee contract in 1918. He has been wonderfully successful in his new undertaking and in moving to Calgary solely to be more central to his territory.

During his residence here "Ernie" has always been at the head of any good time and at the bottom of nearly every clarivari and practical joke pulled off in town.

He was a prominent Oddfellow and Mason having occupied the chairs in both societies.

Both Mr. and Mrs. Muir will be greatly missed in the social life of the town, and their many friends wish them every success in their new surroundings.

perfectly safe for use as a public hall provided certain requirements were fulfilled.

The accident which occurred on Sunday at "Sudden Death" crossing was considered sufficiently serious to galvanize the council into action, and the secretary was instructed to prepare a traffic by-law.

The question of the Town's interest in the Tax Sale was then brought up and very fully, in fact—discussed. Nothing definite was decided and a special meeting will be called to consider this question alone on Thursday.

Council finally adjourned at 11.30 p.m.

**A PICTURE EVERYONE  
SHOULD SEE!**

**"Back to  
God's Country"**

featuring the brilliant swimming star

**NELL SHIPMAN**

This really wonderful picture was filmed way up north of 53 and the principal actors were the wild animals of the Arctic Circle

It is an adaptation of the story "Wapi the Walrus" by

**James Oliver Curwood**,  
the greatest living writer on natural  
history, interwoven with fiction.

at Reasonable Rates per Day or Week.

## Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the best  
independent farm and  
yields good crops, not only  
economically, but EVERLASTING.

Irrigation makes possible the  
successful culture of alfalfa,  
the King of fodders, which  
means good returns in dairying  
and mixed farming.

Irrigation means intensive farming  
and close settlement, with  
all the advantages of a densely  
populated agricultural community.

Irrigation in the Canadian Pacific  
Railway Irrigation District is no  
longer an experimental project  
but it has been tried having  
absolutely demonstrated its success  
wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

Allan Cameron, General Supt. of Lands  
Canadian Pacific Railway, Department of Natural Resources  
926 First Street East, Calgary, Alberta.

You can eat any old time but there is  
only one place where you can eat and  
enjoy your meals and that is the

## New Royal Cafe

Flanagan's Old Store • Lee Wah, Proprietor

We have enlarged our staff and everything is new, clean, and up-to-date.

You will enjoy every meal you have in our new restaurant.

**Best of Everything  
Prices Moderate**

### Selma Rost Receives Governor General's Medal

Selma Rost has received this week the medal presented by the Duke of Devonshire for the candidate receiving the highest marks in the Bassano Inspectorate at the Examinations held in June last.

This honor calls for the heartiest congratulations to both pupil and teacher for the Bassano Inspectorate covers a very wide territory and includes a large number of towns.

The following letter accompanied the medal.

Edmonton, Sept. 30th, 1920.

Madam:—I have the pleasure to enclose a bronze medal donated by His Excellency, the Duke of Devonshire, Governor General of Canada, and awarded to you as the candidate receiving the highest marks in the Bassano Inspectorate at the Public School, Leaving Examination held in June, 1920.

I should be pleased if you would forward to this Department an acknowledgment of this medal in your own handwriting, as it is desirable that the acknowledgment be sent to the Governor General. An early reply will be appreciated.

Yours obedient servant,  
GEO. K. HAVERSTOCK,  
Registrar,  
Miss Selma Madeline Rost,  
Bassano, Alta.

### Crowfoot

The neighborhood was very much alarmed at the news of the hold-up within the borders of our district, though it is rumored that the "bandits" were after a few pipe cleaners from the oil wells. We are glad, however, that Crowfoot's beauty spot was not disturbed.

Our school machine seems to be running very smoothly and our first class has been removed, and everybody is perfectly contented.

Progress is steadily advanced and our school is in full swing. On average, a boy or girl of seventeen would not come amiss to us.

It is asserted that everybody in Crowfoot wants to get the publication re-harmonized. We presume they want to get the best news from the papers.

Mr. and Mrs. H. J. Gorjatt are still residing in Bassano for the past week or so.

Mr. and Mrs. H. J. Gorjatt attended church at Bassano last Sunday. Mrs. and their baby were baptised at the Anglican Church.

It is to be hoped that our ladies will soon be able to put the piano in the school, for we shall very soon be commencing our winter's studies again.

Women's Institute Work Drive on Friday October 10th at the Hunter Hotel. You are assured a good time.

### Notice

To CHRISTEN H. CHRISTENSEN, formerly of House, in the Province of Alberta.

TAKE NOTICE that the Chapin Company has commenced an action against you to recover the sum of \$250.00 with interest, the rate of 5% per annum, from the 1st day of October 1919, to the sum of \$2251.31, being the amount of your indebtedness to it in respect of a certain promissory note given by you on the 21st March 1919.

TAKE NOTICE that the Chapin Company has issued a Garnishment Summons in the said action wherein one, William Livingstone, is named as Garnishee, and has issued a Writ of Attachment directed to the Deputy Sheriff of the County of Calgary, Sub-Judicial, 111 Main Street, Bassano, directing him to attach and sell all your personal estate, credits and effects.

AND FURTHER TAKE NOTICE that you will deliver (a) a Statement of Defence and (b) a Defence, or an application in the said action to be given to you on or before the 3rd day of November A.D. 1920, and in default of you so doing, the plaintiff may obtain judgement without further notice to you.

DATED at Calgary, Alberta, this 6th day of October A.D. 1920.

CLARKE, GARBON,  
MACLEOD & CO.  
Solicitors for the Plaintiff.

APPROVED:  
F. L. CLARKE.

## STYLE HEADQUARTERS where Society Brand Clothes are sold

Why we sell  
Society Brand Clothes  
Because you  
should buy them

When a man puts on Society Brand Clothes he, in a measure of speech, steps entirely out from the crowd of commonplace clothes wearers—he becomes a style leader.

Society Brand Clothes give distinction of appearance through their skill and good judgment in tailoring. It is tailoring without fancy trimming—tailoring without a flaw.

We find that the men who think ahead of the crowd like Society Brand Clothes—for their style value, their wear value and the ease with which they can purchase a correct fitting suit or overcoat.

New Fall and Winter Styles at  
JACK TORGAN'S - BASSANO

## DO IT RIGHT

If you want to make a Real Job of your Fall Plowing  
hitch a Fordson Tractor on to a John Deere or Cockshutt  
Plow.

You can always depend upon this combination to make good under any conditions - for that is what they were built for.

### WE ARE FORDSON DEALERS

We are also sole agents for the John Deere Plow Co. and Cockshutt Plow Co. and handle their full line of Farm Machinery.

**ROY SMITH'S**  
Bassano, Alta.

## Rural Schools Predominate

Seventy-five Per Cent. of Total Enrollment in Saskatchewan is in the Country.

In Saskatchewan about seventy-five per cent. of the total school enrollment is found in the village and rural schools. In addition, all the town schools contain a large rural element while our cities are not yet sufficiently large to be entirely removed from the influence of the rural environment. This predominance of rural school population has been kept in view when framing the various courses of the elementary curriculum.

Agriculture is a subject for grades VII. and VIII. While it treats the more practical side of the industry, it is developed from the nature study point of view rather than as a science subject, the course being designed to be the crown or top stone of the nature study work of the previous grades. This method of treatment is advocated in view of the work definitely related to the environment of the pupil, and to permit of such modification of subject matter as will best meet local conditions.

The practical working out of the course seems to indicate that the present method is quite satisfactory.

Gardening and poultry hold the chief place of interest in many larger centres without in any way preventing the study of the more practical

work of the course, while throughout the country local interest colours the character of the work being attempted.—Augustus H. Ball, M.A., LL.B., Deputy Minister of Education.

The Greeks regarded amber with religious reverence due to its mysterious properties.

A fly walks—in proportion to its size—13 times as fast as a man can run.

## And His Family Medicines

MOST people first knew Dr. Chase through his Receipt Book. Its reliability and usefulness made him friends everywhere.

When he put his Nerve Food, Kidney-Liver Pills and other medicines on the market they received a hearty welcome, and their exceptional merit has kept them high in the public esteem.

Take Dr. Chase's Kidney-Liver Pills for example. There is no treatise to be compared to them as a means of regulating the liver, kidney, heart and lungs, and in the cure of biliousness, kidney disease and indigestion.

The pills are dose. No a box at all dealers or pharmacists, Bass & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

## Farmers to Keep Books.

## Will Have Record of All Expenditures and Receipts.

Twenty-nine thousand Nebraska farmers have obtained college of agriculture farm record books or the price of keeping books has been paid.

The record book provides for an annual inventory of all lands, stock, implements, grains, feeds, etc., and for a complete account of all expenditures and receipts. At the end of the year the farmer using the book will have a record of all his income, profits and losses on all kinds of stock, crops and other farming operations, and have a record of all expenditures and receipts of the year. Such a record will be of value not only for sentimental reasons, but also for legal interests, as well as a complete record of all business for the year.

## If Breath Comes Hard

If Nose is Plugged  
You Have Catarach

Perhaps you haven't heard of the new remedy—it's so pleasant to use! All the nose, throat, and lungs are cleared, the head is lightened, the air of the pine woods. It is a perfectly refined—united that makes you anti-catarach and the Blue Gum tree of Australia.

The name of this great specific is Catarach. This medicine can find its equal in force for colds, coughs, catarach or throat trouble. You see it's simply that the sputum digestion—just simply inhalation the salivary essences of the pine woods, which are the healers that they drive out every trace of Catarach in no time.

For sprains, rheumatism and paralysis, with an irritable throat, bronchitis, asthma, catarrh or a grippe, Catarachrom is of inestimable value.

The inhaler can be carried in your pocket and may be used at any time on any place.

Large size, guaranteed, and sufficient to fill a pocket. Sample size, 25c. Sold by all storekeepers and druggists.

## Moldy Silage

## Using Plenty of Water at Filling, Sure Way to Avoid Bloating.

More or less concern is expressed by farmers over the fact that they frequently spot in the silage. Some report that the losses from silage is almost amount to a good deal. Others express the opinion that moldy silage is poisonous to all classes of livestock. What are the facts?

There are several kinds of molds that appear in silage, depending upon the weather and the way it is packed. Molds require air for their growth and if the corn is put in the silo when it is too mature or too dry there is not enough air to dry it out and give moldy surfaces an application of some anti-mold preparation. Axle grease or other lubricant will answer the purpose.

## Perennial Hot Water

## French Villages Have No Use for Coal

—Or Wood.

With the price of coal unprecedentedly high and still soaring, one reads with envy of the French village of Chaudesauves, in the Auvergne. It sits in the crater of an inactive volcano, where stone-covered walls furnish boiling water, which flows through mains beneath the roofs of houses. Not a chimney is to be seen in the village, which is surrounded with snow-covered peaks. The water is so hot that neither slops nor ranges nor bulls are to be found; neither coal nor wood, nor any other kind of fuel is used there. But the houses are all stone-walled, even the chimneyless stove inside is built of stone. In the floor of each house are several holes leading to the main pipes. To heat the house the covers of the holes are removed; to prepare a meal, a pot is lowered to the flow of boiling water; to wash, a bucket of water is heated and is to go to the large pots of hot water which is always ready just outside the village.

The Bank of Amsterdam was the world's warehouse for bullion in the seventeenth century.

## Care of Machinery

## Implements Kept in Repair Give More Satisfaction.

Do not merely go through the motion but shelter machinery considerately, and before doing so, first list the repairs needed for next season and secure them along with an assortment of bolts, rivets, springs, etc., and have them ready for use. An implement in repair at all times will have a longer life and will give more satisfaction during its life than one receiving irregular attention. Scrub, clean, oil and paint, and give polished surfaces an application of some anti-rust preparation. Axle grease or other lubricant will credit any rumor which put into circulation. ## The Monthly Cheque That Never Fails

Suppose you were totally and permanently disabled, through accident or illness.

### What Could You Do?

Is it not worth while to set aside only a small amount yearly in order to make sure of a monthly income that would never cease while you live, and which would be paid at a time when you might be helpless without it?

### The Special Indemnity

This policy, issued by the Canada Life, will pay you

**\$50.00 a Month**

or more during your lifetime, if before you reach age 60 you should become totally and permanently disabled by disease or accident, and

### Five Thousand Dollars

or more to your family at your death, without any deduction whatever on account of the monthly payments made to you.

Profits will be paid in addition. Premiums are waived when you become totally disabled, but the policy continues in force earning dividends and increasing in cash value.

### A Popular Plan

Since the Canada Life issued this new policy, a very large proportion of insurers have applied for this double form of protection.

#### It is worth investigating

Think what it may mean to you to be certain of an income right up to the end of life, while unable to earn a living.

Ask for Particulars

Canada Life Assurance Company, Toronto:  
Dear Sirs—Without obligation on my part, please send me particulars of  
your new Special Indemnity Policy.

## A Timely Message To The People of Alberta

Office Fire Commissioner,  
Edmonton, Alta.,  
September 26th, 1920.

Dear Sirs:

By Royal Proclamation His Excellency the Governor General of Canada has designated October 9th, 1920 as "Fire Prevention Day." On this day we hope that all the people of Alberta will be especially diligent and active in devoting a few moments of our time attending this great movement.

October 9th, may be termed the "Nation's Clean-up Day." It is, as well, a day set aside for the protection of our homes and buildings, and also to bring to the condition of our heating apparatus, water pipes, sub-cans, electric wiring and other sundry appliances required for use during the winter season.

Fire is a disease. It is caused by the unwise use of matches and cigarette ends. These conditions may be organic, that is, part of the building itself, or may be functional, that is, part of the operation carried on in the building; both of these conditions it is your duty to remedy.

This epidemic touches the pocket of every man, woman and child in the country, and insurance companies, clothing, food, drink and wear, its ravages are terrible of sufficient economic import to impress upon us the realization that the price of safety in this respect. External Vigilance can do much to help.

Consequently, in view of a sufficient opinion took this table over; you will then be convinced that the need of being constantly reminded is born of the necessity for greater carelessness in our attitude to this disease.

WORLD'S PER CAPITA FIRE LOSS

Canada	\$ 2.75
United States	2.25
Spain	1.89
Belgium	1.02
Russia	0.47
France	0.74
England	0.64
Norway	0.55
Italy	0.39
Japan	0.31
Sweden	0.42
Austria	0.32
Germany	0.28
Netherlands	0.11

You will note Canada heads the list in loss per capita. The reason may be found in the following quotation which characterizes the attitude of the people toward the fire problem.

"The passing strange that people are blind to their real interests. We look upon any expenditure made for fire protection as just so much loss—something paid out for protection which we do not need. We resent any advice of the kind and feel that it is a reflection upon us and our judgment. A man who talks about fire protection beforehand is a fool, and a man who talks about it afterwards merely wishes to obscure the possible gains of existing conditions. We prefer to take the one-in-a-hundred chance of being the next to be burned out and want and will wring our hands and suggest the terrible loss Province incurred."

"There's no denying it, but as a nation we don't like advice. We love to be ignored—or forced—send to learn by hard experience. We have little use for fire protection experts, who tell us how unfortunate we are, and how unfortunate we are, and how unnecessary this and that expense, care of sweet respirators and gypsum with those we used over the terrible infections visited upon us by an unknown Providence of Fate. We despise and abhor these doctors, the preachers of this, the corner of evil, but we just love the extreme."

We believe that the greatest value to come and money expended is obtained by a course of instruction to the children of our Province through the schools. We urgently request the Board of School Commissioners of Alberta and the educational community to make arrangements for a short talk by the fire chief, principal of the school or other qualified person, on the subject of Fire Prevention to the children of their school on Friday the 9th day of October. The main topic of the talk should be the Canada Life Policy. We see that 70% of any fire loss is attributable to carelessness, it is surely a serious indictment against an intelligent and progressive people—an indictment against our "habits."

This address could also include some comment upon some of the common precautions for the prevention of fires.

1. Removal of rubbish that may have accumulated around the premises.
2. Danger of dumping ashes near wood.
3. Danger of children playing with matches.
4. Danger of fire from over-heated stoves, the infrared pipes improperly protected from wood-work.
5. Oil rags and waste often cause spontaneous combustion.
6. Care in handling gasoline.
7. Danger of attempting to light fire with cold oil.

Elsewhere in this town you will find the third card of this series distributed on methods of fire prevention, and it will be worth your while following this series to the end. These cards do not convey any new truths, but they contain a bit of information that may be of value to a girl or boy to think, act and talk fire prevent.

As parent or guardian of some boy or girl, you have a share in this important work. When you take the time to read these cards it is useful in their habit, encourages them to constantly upon the lookout for hazardous conditions about your own premises. It will pay you in dollar and cent without considering any possible sacrifice of life, which sacrifice is beyond computation.

Fire prevention is the work of to-day; it may be too late tomorrow.

### Tax Sale

Sale of Lands in the Province of Alberta for arrears of taxes

taxes

Notice is hereby given that certain lands in Improvements Districts Nos. 154, 156, 158, 186, 216, 217 and 247, in the Province of Alberta will be offered for sale for arrears of taxes and costs on Thursday the 11th day of November 1920 at 10 o'clock in the forenoon at the Town Hall, Bassano, unless the arrears of taxes and costs be sooner paid.

A printed list of the said lands may be obtained upon application to the Department of Municipal Affairs at Edmonton, Alberta, or may be seen in the issue of this paper dated September 25th.

Dated at Edmonton this 23rd day of September 1920.

## BUILD IT NOW

Reconstruct the Old Home  
For Longer Usefulness

Reconstruction begins at the old home. If you are thinking of a new one, a little of the right kind of repairing and mending will readily restore it to present day standards.

Perhaps it's a new porch, a summer kitchen, a side entrance, a new roof, extra rooms. In these cases we will supply all of old, cracked walls and ceilings that is needed.

The right kind of lumber used in the right way will make the change and we have all the materials you will require including that knots and cracks, manufactured lumber Beaver Board, for better walls and ceilings.

Suppose you ask us about it?

CROWN LUMBER CO., LIMITED

Box 26 JOS. WRIGHT,  
Ten years local Manager. Phone 31

Prevention is Better Than  
Cure!

Further Points on the Prevention of Fire.  
Read carefully and watch for cards to follow

- Deposit ashes in a pit four feet in depth, at least thirty feet from any building.
- As pipe ashes, cigar, and cigarette stubs are excellent agents to start fires, you should not allow smoking in or around your out-buildings.

W. M. SELLER, Deputy Fire Commissioner,  
Treasury Department, Edmonton.

## Local and Personal.

Mr. and Mrs. A. L. Seale returned from their trip to the coast on Monday.

Don't forget the Tax Sale on Saturday. There will be some splendid buys.

The regular meeting of the Women's Institute will be held at the Town Hall at half past three Tuesday afternoon, 12th October.

Don't forget the Whist Drive Friday night October 9th at the Hunter Hotel. Being given by the Women's Institute a good time is assured.

Marriage: By the Very Rev. Dean Paget at the Pro-Cathedral, Calgary, on Saturday October 2nd, May Brauley to Herbert Jaunes Eccles.

J. H. Brewer, the Crowfoot storm-queen, paid us a visit on Friday, and gave us a very jurid description of his most recent imbroglio.

Services on Sunday next at the Anglican Church will be held at 10 a.m. and 11 a.m. The first service will be the Celebration of Holy Communion; the second the usual monthly children's service.

Tom Hunter, having cleaned up all the loose cash lying round at the coast returned to Bassano on Saturday. The "Boy" finished up a wonderful season by winning the "winners' Race" at Victoria in splendid shape.

Mr. Cox, late of Minneapolis, stopped off at Bassano over Sunday and was so impressed with the town he says that he intends staying here permanently and will operate a junk store. Seems a somewhat doubtful compliment.

The Connally Farms Co., are going out of business, having leased their land. They are holding a huge unsreserved auction sale at the farm on Tuesday and there should be some splendid bargains floating round.

## Greek Meets Greek

It used to be said that when two Greeks met in argument or combat, there was certain to be some scrap.

Apparently when two doctors meet as did Drs. Da Silva and Bowles on Sunday its a lead-pipe cinch there will be some scrap heap.

Both doctors were ambling along leisurely at about fifty miles an hour or less and met on "Sudden Death" corner, Da Silva choosing the lesser of the two evils of Flanagan's store and the Union Bank turned his Chevrolet loose on the latter while Bowles realized the hopelessness of the situation headed west.

However Da Silva's presence of mind and the solidity of the Union Bank saved the situation at the cost of his new car and Bowles got away with nothing worse than a bad scare.

The only redeeming feature of the occasion is the fact that the accident has awakened the Council to a sense of its responsibility in the matter, and before long we shall have a brand new by-law on the books.

Councillor Travis' suggestion that the crossing should be raised about a foot high we believe would more surely put a stop to the criminal disregard for personal and public safety which at least ninety per cent of our autoists display at this crossing.

## FOR SALE AT COST

E. # 28-24-18 W. 4th, all fenced, forty-five acres, new breaking, ready for drill, about 40 tons hay. \$12.00 cash, balance C.P.R. terms. Apply GEORGE PEARSON, care of Jos. Heiss, Hussar.

Work has commenced on the extension of the depot.

R. A. Brown of the Electric Light Co., was a visitor to town Saturday. He states that the company has unbounded faith in Bassano's future.

## Canada B.

This is our highest grade of range and of it we can say that there is nothing better made. Extra large roomy oven with pyrex glass door so that progress of baking can be seen without opening the door. polished top, extra large all-copper reservoir, nickel-plated; a handsome range.

The nickel plate is all smooth and easily kept clean.

## KODAK

Can we live again?

It is possible!

How many experiences of your past life--incidents which have brought you happiness--with friends who are no longer with you--are there which you would give worlds to have some living record of?

Half the joy of life lies with happy memories?

You can live again in them if you invest a few dollars in a Kodak.

We have the Eastman in every size with all accessories in stock.

Stiles - The Druggist
